-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The IDS, filed 2/24/04, has been considered in full.

Drawings

2. The drawings, filed 8/21/03, are acceptable as formal.

Specification

3. The amendment filed 8/21/03 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The addition of the "Honda Element" is not supported by the original disclosure. Note that the preliminary amendment was concurrently filed with the original application. However, the preliminary amendment was not referenced in the Oath; and therefore, not part of the original disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

4. The use of the trademarks HONDA CIVIC; HONDA ELEMENT have been noted in this application. They should be capitalized wherever they appear and be accompanied by the generic terminology. Review the Application in it's entirety for all occurrences of Trademarks.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 23-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 23 and 24 claim "the 2002 Honda Civic". This is indefinite since it is not clear what the meets and bounds of the claim is. The 2002 model year may have had mid-year modifications. The claim is indefinite since one is not certain what this limitation imports to the claim.

In addition, "HONDA CIVIC" is a trademark. The use of Trademarks in claims is not permissible.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3682

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-30 are rejected under 35 U.S.C. 102(b) as being anticipated by the DC Sports Adapter (Internet catalog and Google Groups public email establishing the date of 7/11/2000).

The DC Sports Adapter is a short shift adapter (10) which alters the attachment point of the shift cable (the new attachment point being a ball and socket connection as shown in the attached drawing as (1)); the altered attachment point changes the radius of the attachment point to a larger value such that, upon movement of the shift lever, the shift cable has a larger actuation force. This effectively shortens the amount of travel to shift the transmission. The short shift adapter having a side (3) which is complementary to a side of the original equipment shifter; the short shifter is placed next to the original equipment shifter and secured with fastener (2); the short shifter having a hole (4) for receiving the shift axle of the original equipment shifter.

Conclusion

9. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
